## Information for Authors

### Aim and Scope

The Nigerian Journal of Technological Development publishes high-quality articles focusing on all aspects of Engineering and Applied Sciences. All manuscripts will be double blind peer-reviewed and if found suitable, published according to the subject matter, either as a **Research Paper**, **Review Paper** or a **Technical Note**.

### Submission of Manuscript

Submission of manuscript is on the condition that it is an original work of the author(s) and it has neither been published previously nor currently under consideration for publication elsewhere. Authors should submit the electronic copy of their manuscript directly to the journal through the journal's website using the online submission system. Please do not submit a hard copy to the editorial office or send your manuscripts by e-mail.

After the manuscript has been submitted, you will see a confirmation screen and receive an email confirmation stating that your manuscript has been successfully submitted. If you do not receive this, your manuscript will not have been successfully submitted to the journal and the paper cannot progress to peer review. If this is the case your manuscript will still be sitting in the 'Incomplete' section of your 'Author Page' awaiting your attention.

To track your submission's progress through the review and editorial process, you will need to log into the journal website, and choose your role as Author. Click on the linked title to go to the submission record.

### Preparation of the Manuscript

Manuscript should be written in English Language and typed in 12 point font size using Times New Roman in double spacing on A4 paper. A margin of 25 mm should be left at the sides. The paper should not exceed twenty (20) pages, including figures and tables. The manuscript should be organised under the following headings:

#### Title Page

The title page should contain **only** the title of the article, authors' contact details such as names, institutional affiliations, corresponding author's email address and phone number. This should be uploaded as a supplementary document on the Author's portal. Please note that the article title should not exceed fifteen (15) words.

#### Abstract Page

Page 1 of the manuscript should contain the title of the article, the abstract, five or six keywords, and may include the Introduction Section, etc. However, it must **NOT** contain name(s), and address(es) of author(s), and e-mail addresses and telephone number of the corresponding author. These information will be supplied on the online submission platform in addition to the uploaded title page above. The abstract should not normally exceed 200 words in 12 point font size.

## **Keywords**

Five or six relevant keywords should be provided on the title page.

## **Symbols, Abbreviations and Units**

Symbols and abbreviations should be defined where first mentioned. If the symbols are many, a “Notation” defining the symbols must be included between the abstract and Introduction. SI units should be used.

## **Introduction**

This should include the background to the study, a brief review of literature and clearly-stated objectives.

## **Theoretical Analysis**

The mathematical principles or theories used should be included as appropriate.

## **Materials and Methods/Methodology/Experimental Procedure**

This section should include apparatus and equipment setup, work materials, design, experimental methods, as applicable.

## **Results and Discussion**

Results could be presented in descriptive, tabular or graphical form. Information presented in tables should not be repeated as figures. Discussion should be focused on the interpretation of experimental findings.

## **Conclusion**

The conclusion should be a brief summary of findings. It should clearly state the contributions, relevance of the findings and recommendations, as appropriate.

## **References**

The Harvard system (alphabetical listing) of referencing should be used in the body of the manuscript while only essential references must be cited and listed. Examples of citing references include: Omeiza (2012) or (Omeiza, 2012) as appropriate; Olaniyan and Oje (2002) or (Olaniyan and Oje, 2002) as appropriate; Ogunlela *et al* (2006) or (Ogunlela *et al*, 2006) as appropriate. Examples of listing references are as follows:

### ***Books***

**Adedayo, S. M. (2000).** Graphics for Engineers. Indemac Publishers, Ilorin, Nigeria.

### ***Journals***

**Omeiza, I. O. A. (2012).** An Investigation on the Problem of Thinning in Fingerprint Processing. Nigerian Journal of Technological Development, 9 (1): 26 - 36.

**Olaniyan, A. M. and Oje, K. (2002).** Some Aspects of the Mechanical Properties of Shea Nuts. *Biosystems Engineering*, 81 (4): 413-420.

**Ogunlela, A. O.; M. Y. Kasali and I. E. Ahaneku. (2006).** Hydrologic Characterization of the National Centre for Agricultural Mechanization (NCAM) Watershed. *Journal of Science and Technology Research*, 5 (3): 69-73.

### *Conference Papers*

**Akorede, M. F., and Hizam, H. (2009).** Teaching power system analysis courses using MATPOWER. Paper presented at International Conference on Engineering Education (ICEED2009), Kuala Lumpur, Malaysia, 45-51, USA: IEEE.

### *Reports, Thesis and Dissertation*

**Abioye, A. M. (2001).** Design of Engineering Power Transmission Elements using Visual Basic. Unpublished M.Eng. Thesis, Department of Electrical & Electronics Engineering, University of Ilorin, Ilorin, Nigeria.

### *Web Publications*

**Anderson, T. (1996).** A Data Envelopment Analysis (DEA). Available online at: [www.emp.pdx.edu/dea/homedea.html](http://www.emp.pdx.edu/dea/homedea.html). Accessed on March 7, 2013.

### **Tables and Figures**

Tables and Figures should be placed as close as possible to the first place of reference. References should be made to all the tables and figures in the manuscript.

### **Processing and Publication Charges**

A processing fee of N6,000.00 should be paid while sending the manuscript and a publication page charge of N10,000.00 shall be charged after acceptance. All payment should be made to the following Account:

Account Name: Nigerian Journal of Technological Development [NJTD]  
Name of Bank: United Bank for Africa Plc  
Location: University of Ilorin, Ilorin, Nigeria  
Account Number: **1013302840**

A copy of the payment teller should be enclosed while submitting the manuscript. The scanned copy of the teller should be uploaded as a supplementary file along with the manuscript in the author's portal.

To encourage foreign authors, the processing fee is waived for any submission which does not have any Nigerian author.

## Acknowledgements

Acknowledgement of the individuals who provided help during the research should be collated in a separate section at the end of the article before the references and should, therefore, not be included on the title page, as a footnote to the title or otherwise.

## Suggested Reviewers

A list of, at least, three suggested reviewers should be provided with their current institutional affiliations as well as email addresses. However, please note that the Managing Editor reserves the right to determine the appropriate reviewers to review your manuscript. This request is simply to populate our database of reviewers in diverse fields.

## Subscription and Advertisement

The subscription and advertisement rates can be obtained from the Editor-in-Chief, the Managing Editor or the Business Manager. Current and past volumes of the journal are available at Room **G11**, Department of Materials and Metallurgical Engineering, Faculty of Engineering and Technology, University of Ilorin, Ilorin; at Options Bookshop, Ibadan; or Jasper Books Nig. Ltd, Ilorin, for sale at reduced price.

## Submission Checklist

The following list will be useful during the final checking of your article prior to sending it to the journal for review. Please ensure that the following items are present:

- The title page contains **only**:
  - Title of the manuscript; and
  - Authors' names, affiliations, and contact details of the corresponding author.
- Ensure that the abstract page **DOES NOT** contain the authors' details and contacts such as names, postal address, email address, and phone number.
- Further considerations
  - A list of three suggested reviewers and their email addresses has been provided.
  - Manuscript has been 'spell-checked' and 'grammar-checked'
  - References are in the correct format for this journal
  - All references mentioned in the Reference list are cited in the text, and vice versa
- Processing fee
  - The processing fee of six thousand naira (N6,000.00) has been paid directly to the Managing Editor or paid into the Journal Bank Account earlier provided. It should be noted that this does not apply to foreign authors.
  - A scanned copy of deposit teller is e-mailed to the Managing Editor, indicating the title of the submitted manuscript in the mail.

## Complimentary Journal Copies

Since authors can always download their published papers from our website at [www.njtd.com.ng](http://www.njtd.com.ng), author's complimentary copy shall no longer be sent to the authors. However, any author that so requires a print version of the journal shall pay a sum of two thousand Naira (N2,000:00) per copy.
